### Profile

---

I'm a recent graduate, Aiming to find a position that allows me to increase my knowledge, skills and experience as a software engineer.

### Education

---

2021 **Bachelor of Science major in Computer Science, Helwan University**  
Overall grade : Good,  
Graduation project : Excellent.

### Professional Experience

---

2021 **Customer Support Advisor, Concentrix**  
Smart Village For over 6 months, I worked at Concentrix as a customer support advisor for an English account called AT&T.

2022 **React.js, Udemy**   
React - The Complete Guide (incl Hooks, React Router, Redux).

### Projects

---

**Institute Home Page, using (HTML5, CSS3 & JavaScript)** 

My first ever project was to create a static web page that displayed information about an institute called "HIMS" and linked it with a page that showed the results of students. Click to check it out!

**Online Food Ordering Web App, using (HTML5,CSS3,JavaScript & Bootstrap)** 

A static online food-ordering web application called "Fiverr" where you can find many food categories to choose from, Click to check it out!

**Weather App, using (HTML5, CSS3, JavaScript & APIS)** 

Weather web application that shows you the weather for today and the next 7 days, as well as other cities' weather if you search them, Click to check it out!
